

# PROJECTED COURSE OFFERINGS FOR THE SUMMER OF 2015

The Office of Summer Session provides this list of summer 2015 projected Arts and Sciences course offerings to assist you in academic planning. Summer is an excellent time to get ahead or catch up, take a year of chemistry or physics or a language, take one or more courses that will allow you to study abroad or at the Duke Marine Lab, or make progress towards completing your major, minor, or certificate program.

There are four course lists below: Term 1 intensive (4-week), Term 1 traditional (6-week), Term 2 intensive (4-week), and Term 2 traditional (6-week). The maximum course load for the intensive terms is 1.5 course credits, while the maximum course load for the traditional terms remains 2.5 course credits.

The official schedule of courses will appear on ACES on February 9 and registration for summer opens on February 16. Watch for regularly updated projected course offerings on this web site between now and the end of January. In addition to regular course offerings, many departments will offer independent study and special projects courses.

Start planning your summer now. Feel free to contact us at 684-2621, or [summer@duke.edu](mailto:summer@duke.edu), if you have questions. Course synopses will begin appearing on ACES as soon as the schedule of courses goes 'live' on ACES.

(\*\*\*Contact the Pratt School of Engineering, the Marine Lab, and the Global Education Office for information regarding summer coursework sponsored by those academic offices.)

## TERM 1 INTENSIVE 4-WEEK (May 13-June 6)

AMES 322 Mystical Literature  
CULANTH 290S Religion & Materiality in Asia  
CULANTH 290S Sex & Culture: Thinking Sex, Gender & Sexuality  
ECE 230L Microelectronic Devices and Circuits  
ENGLISH 90S Blackness as Thought; Art & Politics in the 19<sup>th</sup> & 20<sup>th</sup> Centuries
